Contents

How we design training, the quality system behind it, twelve tracks covering every business function, and how a programme is scoped, delivered and evidenced.

01 Our Training Approach 3
Built around your team, delivered in both languages

02 Quality Assurance 6
Our partner's ISO 9001:2015 certified management system

03 The Training Tracks 8
Twelve tracks across every business function, plus custom programmes (page 15)

- 01 Leadership & Management 9
- 02 Strategy, Governance & Risk 9
- 03 Finance & Accounting 10
- 04 Banking & Financial Services 10
- 05 Sales & Customer Experience 11
- 06 HR & People Development 11
- 07 Operations & Supply Chain 12
- 08 Project Management 12
- 09 Communication Skills 13
- 10 Compliance, Ethics & Safety 13
- 11 Digital Transformation & AI 14
- 12 IT, Cybersecurity & Systems 14

04 Pathways & Tailoring 16
Role pathways and sector-specific adaptation

05 Running a Programme 17
Four steps, assessment, and what you receive at the end

06 Discuss Your Training Needs 19
How to reach our team in Addis Ababa

01 · OUR TRAINING APPROACH

Every programme is built around you.

We do not run a fixed curriculum. Whether the need is leadership, finance, customer service or technology, every programme starts from your people, your sector and your goals, which is why no two curricula are identical.

Designed per engagement

We start from your skill gaps, schedule and goals, then design around them rather than fitting you to a catalogue.

Timed to your calendar

Sessions are scheduled around your operating cycle, launches and reporting deadlines, so work keeps moving.

Amharic and English

Materials and delivery are bilingual as standard, so comprehension is never the limit on capability.

Your context, your cases

Exercises use your own policies, products, systems and, where permitted, your real data and cases.

Trainers based in Ethiopia

Delivery is by DES trainers who are in the country and available for follow-up, not fly-in consultants.

Measured, not assumed

A baseline check before delivery and an assessment afterwards, so the change in capability is evidenced.

OUR PROMISE

By the end of the programme, your team can run the system, and the training, without us.

01 · TRAINING IN ACTION

Inside our sessions.

Moments from delivery, briefings and delegation programmes run with our international partner.

Programme coordination session

Roundtable with delegation partners

Strategic briefing session

Leadership working session

Institutional planning workshop

Team review session

Photography is from live delivery and delegation programmes. Publication consent is confirmed before any image showing a client or delegation is used.

01 · FORMATS & DELIVERY

Onsite across Ethiopia, remote where it suits you.

Larger teams are trained in waves, so the institution keeps operating while its people learn.

Onsite

At your premises or a venue in Addis Ababa, with equipment and materials provided.

Remote

Live instructor-led sessions in shorter blocks, suited to regional offices and branch networks.

Blended & delegation

Mixed cohorts, plus hosted delegation and study-visit programmes with our partner.

WHAT MAKES DELIVERY LOCAL

Designed for how Ethiopian institutions work.

Amharic and English	Materials and delivery are bilingual as standard, so comprehension never limits capability.
Trainers in the country	DES trainers are based in Ethiopia and available for follow-up, not fly-in consultants.
Built for real bandwidth	Remote sessions are designed for intermittent connectivity, with offline materials issued in advance.
Regulatory context	NBE and INSA expectations are reflected in the content, not bolted on afterwards.
Institution-friendly scheduling	Waves are planned around your service hours, so counters and branches stay open.

02 · QUALITY ASSURANCE

Delivered under a certified quality system.

Joint programmes with our international partner are scoped, designed, delivered and reviewed under its ISO 9001:2015 quality management system. That is why our method is documented and repeatable rather than dependent on which trainer turns up.

- **Every step follows a written process**
- **Reviewed and improved after each cohort**
- **The same standard in every country**
- **Clear records you can audit**

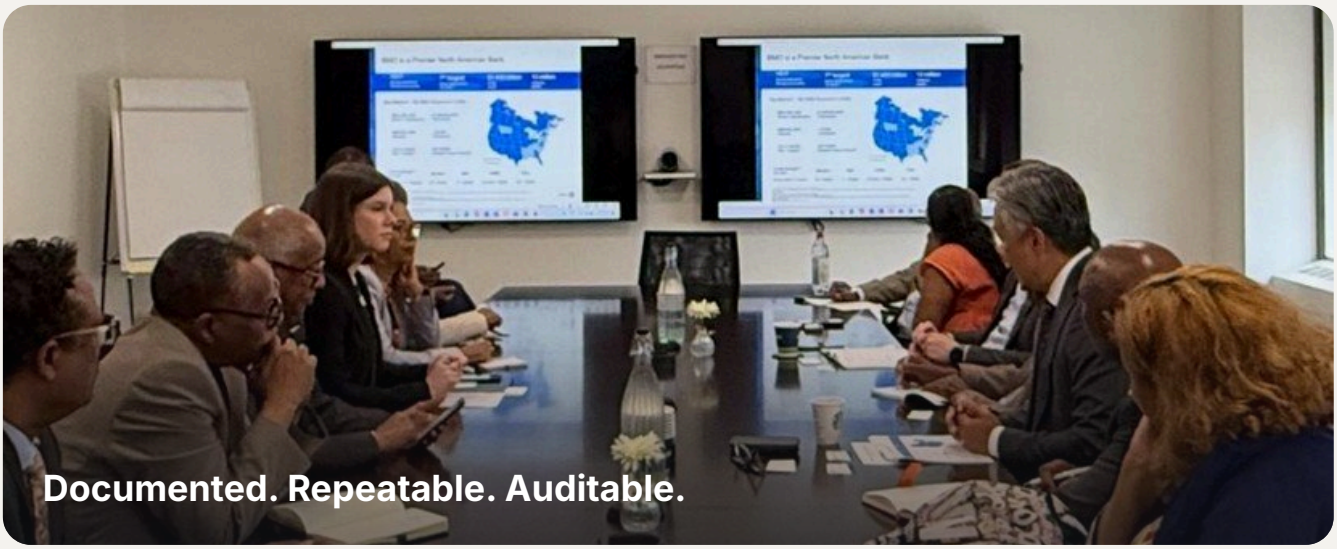

HOW THE SYSTEM COVERS A PROGRAMME

01
Scoped
Needs and objectives recorded and signed off.

02
Designed
Materials version-controlled and reviewed.

03
Delivered
By trainers with recorded qualifications.

04
Reviewed
Feedback and results feed the next revision.

ISO 9001:2015 certification is held by our international partner. DES PLC does not itself hold this certification at the date of this catalogue.

02 · QUALITY ASSURANCE

What the certified system changes for you.

ISO 9001 is a system standard, not a training accolade. These are the specific controls it puts around every joint programme.

Documented scoping

Every programme starts from a recorded needs analysis and agreed learning objectives, signed off before design begins.

Controlled materials

Course materials are version-controlled and reviewed, so two cohorts six months apart receive equivalent content.

Trainer competence records

Instructor qualification and subject currency are recorded and reviewed rather than assumed.

Measured feedback

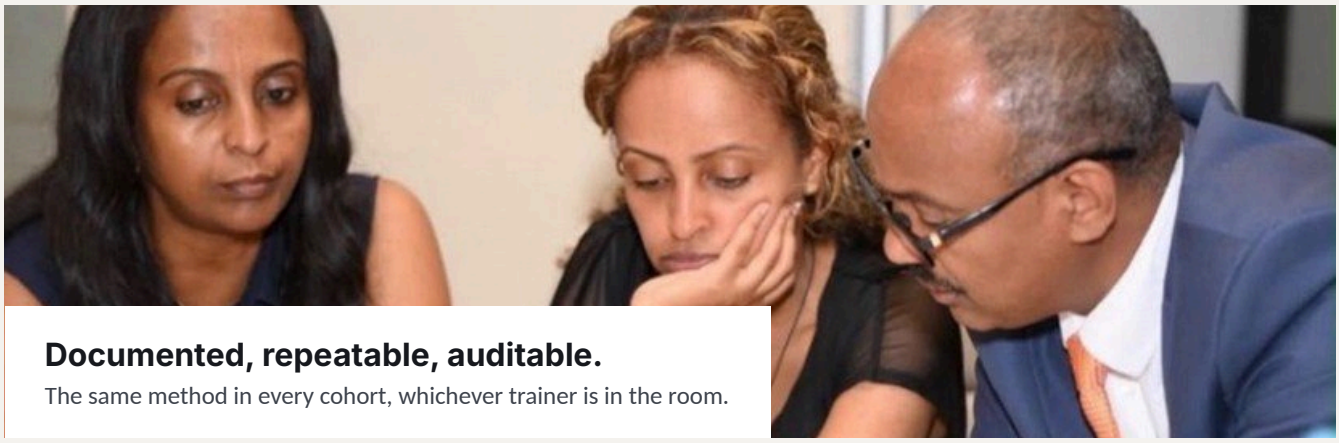

Delegate evaluation and outcome data are collected every cohort and fed into the next revision.

Non-conformity handling

When something falls short there is a defined corrective process with an owner and a closure date.

Management review

Programme performance is reviewed at management level on a fixed cycle, with actions tracked.

Documented, repeatable, auditable.
The same method in every cohort, whichever trainer is in the room.

03 · THE TRAINING TRACKS

Twelve tracks, every part of the business.

From the boardroom to the front counter, from finance to the warehouse floor. Every track is re-scoped against your sector, your cohort's starting level and your schedule before delivery, so any organisation can find what it needs here.

Leadership & Management 01

Managers who set direction, coach and lead change.

Strategy, Governance & Risk 02

Boards and executives who plan, govern and manage risk.

Finance, Accounting & Budgeting 03

Numbers that finance teams and managers can trust.

Banking & Financial Services 04

Credit, treasury, AML and digital banking skills.

Sales, Marketing & Customer Experience 05

Winning, serving and keeping customers.

Human Resources & People 06

Hiring, developing and keeping good people.

Operations, Supply Chain & Procurement 07

Processes, purchasing and logistics that run smoothly.

Project & Programme Management 08

Delivering on time, on budget and on scope.

Communication & Personal Effectiveness 09

Writing, presenting and working well together.

Compliance, Ethics & Safety 10

Doing the right thing, safely and on record.

Digital Transformation & AI 11

Using digital tools and AI with confidence.

IT, Cybersecurity & Systems 12

Keeping systems secure, running and well used.

Need something else? Custom programmes, by request.

We design courses from scratch around your role, sector and policies. See page 15.

TRACK 01

Leadership & Management

Building managers at every level who set direction, develop their people and lead change that lasts.

AUDIENCE Directors, managers, supervisors and high-potential staff · **LEVEL** All levels

MODULES

01 Leading teams through change
02 Delegation, coaching and feedback
03 Decision making under pressure
04 Performance management that works
05 Leading multi-site and hybrid teams
06 Executive presence and influence

ON COMPLETION, DELEGATES CAN

- ✓ Set clear goals and hold teams accountable
- ✓ Coach and give feedback with confidence
- ✓ Lead change without losing their people

TRACK 02

Strategy, Governance & Risk

Helping boards and executives turn strategy into results, govern well and stay ready for disruption.

AUDIENCE Board members, executives, strategy, risk and audit teams · **LEVEL** Advanced

MODULES

01 Turning strategy into an execution plan
02 Corporate governance for boards
03 Enterprise risk management (ERM)
04 Business continuity and crisis management
05 Internal control and audit readiness
06 KPIs and performance reporting

ON COMPLETION, DELEGATES CAN

- ✓ Translate strategy into measurable plans
- ✓ Run a risk register that informs decisions
- ✓ Respond to disruption with a tested plan

TRACK 03

Finance, Accounting & Budgeting

Giving finance teams stronger technical skills, and giving every manager the confidence to read and use the numbers.

AUDIENCE Finance and accounting staff, and non-finance managers · **LEVEL** Foundation to Advanced

MODULES

01 Finance for non-finance managers
02 Budgeting, forecasting and cost control
03 Financial statement analysis
04 IFRS reporting essentials
05 Cash flow and working capital
06 Tax and statutory compliance basics

ON COMPLETION, DELEGATES CAN

- ✓ Read and question a financial statement
- ✓ Build and track a departmental budget
- ✓ Spot cost and cash risks early

TRACK 04

Banking & Financial Services

Practical skills for banks, microfinance institutions and insurers, aligned to NBE expectations.

AUDIENCE Bank, MFI and insurance staff, from branch to head office · **LEVEL** Intermediate to Advanced

MODULES

01 Credit analysis and loan management
02 Treasury, FX and trade finance
03 AML/CFT and know-your-customer
04 Digital banking and payments
05 Interest-free banking products
06 Insurance underwriting and claims

ON COMPLETION, DELEGATES CAN

- ✓ Assess credit risk more consistently
- ✓ Apply AML and KYC checks correctly
- ✓ Explain digital products to customers

TRACK 05

Sales, Marketing & Customer Experience

Helping customer-facing teams win new business, serve people well and keep them coming back.

AUDIENCE Sales, marketing, front-line, call-centre and service teams · **LEVEL** Foundation to Intermediate

MODULES

01 Customer service excellence
02 Consultative selling and negotiation
03 Key account and relationship management
04 Digital marketing and social media
05 Brand, market research and pricing basics
06 Handling complaints and service recovery

ON COMPLETION, DELEGATES CAN

- ✓ Serve customers to a consistent standard
- ✓ Grow and retain key accounts
- ✓ Plan and measure a digital campaign

TRACK 06

Human Resources & People Development

Equipping HR teams and line managers to hire well, develop people and build a workplace they want to stay in.

AUDIENCE HR teams, line managers and people leads · **LEVEL** Foundation to Advanced

MODULES

01 Competency-based recruitment and interviewing
02 Performance appraisal and goal setting
03 Labour law and employee relations
04 Learning and talent development
05 Compensation, benefits and HR policy
06 Engagement, wellbeing and retention

ON COMPLETION, DELEGATES CAN

- ✓ Run fair, structured recruitment
- ✓ Apply labour law correctly day to day
- ✓ Build development plans that retain talent

TRACK 07

Operations, Supply Chain & Procurement

Making the everyday work of an organisation faster, cheaper and more reliable, from purchasing to delivery.

AUDIENCE Operations, procurement, logistics, stores and quality staff · **LEVEL** Foundation to Advanced

MODULES

01 Process improvement and Lean basics
02 Public and private procurement practice
03 Inventory and warehouse management
04 Logistics and import/export essentials
05 Quality management and standards
06 Vendor and contract management

ON COMPLETION, DELEGATES CAN

- ✓ Map and improve a core process
- ✓ Run procurement that stands up to audit
- ✓ Cut waste, delays and stock-outs

TRACK 08

Project & Programme Management

Practical project skills for teams that need to deliver on time, on budget and to the standard funders expect.

AUDIENCE Project managers, team leads, PMO and donor-funded programme staff · **LEVEL** Foundation to Advanced

MODULES

01 Planning, scope and scheduling
02 Budget and resource control
03 Risk and issue management
04 Stakeholder communication and reporting
05 Agile and hybrid delivery
06 Monitoring, evaluation and donor reporting

ON COMPLETION, DELEGATES CAN

- ✓ Plan a project with realistic milestones
- ✓ Track cost, time and risk together
- ✓ Report progress clearly to sponsors

TRACK 09

Communication & Personal Effectiveness

The everyday skills that make every employee more effective, whatever their role or level.

AUDIENCE All staff, from new joiners to senior specialists · **LEVEL** Foundation to Intermediate

MODULES

01 Business writing and reporting
02 Presentation and public speaking
03 Emotional intelligence at work
04 Time and priority management
05 Negotiation and conflict resolution
06 Teamwork and collaboration

ON COMPLETION, DELEGATES CAN

- ✓ Write clear reports and emails
- ✓ Present ideas with confidence
- ✓ Manage time and conflict better

TRACK 10

Compliance, Ethics & Workplace Safety

The annual and mandatory training regulators, auditors and boards expect, refreshed so it reflects what has changed.

AUDIENCE All staff, with deeper modules for compliance, audit and safety teams · **LEVEL** Foundation to Advanced

MODULES

01 Code of conduct and business ethics
02 Anti-fraud and anti-corruption
03 Data protection and confidentiality
04 Occupational health and safety
05 Respectful, inclusive workplaces
06 Environmental and social standards

ON COMPLETION, DELEGATES CAN

- ✓ Recognise and report misconduct
- ✓ Handle sensitive records properly
- ✓ Keep the workplace safe and compliant

TRACK 11

Digital Transformation & AI

Helping leaders and staff plan digital change, use AI tools safely and make better decisions with data.

AUDIENCE Leaders, managers and staff in any function · **LEVEL** Foundation to Advanced

MODULES

01 Digital strategy and roadmaps

02 AI literacy: what it can and cannot do

03 Using AI tools safely and productively

04 Data-driven decision making

05 Evaluating technology vendors

06 Leading digital change in your team

ON COMPLETION, DELEGATES CAN

- ✓ Build a realistic digital roadmap
- ✓ Use AI tools safely in daily work
- ✓ Judge vendor claims critically

TRACK 12

IT, Cybersecurity & Systems

Security habits for everyone, plus hands-on skills for the people who run and use core systems.

AUDIENCE All staff for awareness; IT, MIS and system users for technical modules · **LEVEL** Foundation to Advanced

MODULES

01 Cybersecurity awareness for all staff

02 Systems and network administration

03 Data analysis, reporting and dashboards

04 Backup, continuity and incident response

05 Office and productivity tools

06 Onboarding to new business systems

ON COMPLETION, DELEGATES CAN

- ✓ Spot and report phishing attempts
- ✓ Keep core systems running
- ✓ Turn data into reports leaders use

03 · CUSTOM PROGRAMMES

Custom, by request

When the need does not match a standard track, we build the programme from scratch, against your own systems, policies and regulatory obligations, in Amharic and English.

AUDIENCE	LEVEL	FORMAT
Scoped per engagement	Scoped per engagement	Onsite · Remote · Blended

HOW A BESPOKE PROGRAMME IS BUILT

01	**Capture**	Workshops with the sponsor and the people doing the job, to establish what must change and how it will be measured.
02	**Design**	Learning objectives, module structure, exercises and an assessment method, agreed and signed off before build.
03	**Build**	Bilingual materials, workbooks, scenarios and trainer guides developed against your systems, terminology and policies.
04	**Pilot**	A first cohort runs the programme, with observation and feedback feeding a documented revision.
05	**Transfer**	Delivered at scale, or handed to your own trainers through a train-the-trainer track.

Typical commissions

System onboarding, regulator-driven compliance, technical curricula, induction academies.

Train-the-trainer

We certify your trainers, so repeat cohorts cost you nothing extra.

Materials ownership

Ownership and reuse rights are agreed in writing at contract.

YOU RECEIVE

- A programme mapped to your actual skill gaps
- An assessment method agreed before build
- Materials in your terminology, in both languages
- Internal trainers certified to repeat delivery

Four pathways, built from twelve tracks.

Most organisations do not buy a single course. These are the combinations we see most often, in the order we recommend running them.

All staff
Baseline capability

- 09 Communication
- 10 Compliance & Ethics
- 12 Cyber awareness

Front-line teams
Serve and sell

- 05 Sales & Customer Experience
- 09 Communication
- 11 Digital & AI tools

Managers & specialists
Run the function

- 01 Leadership & Management
- 03 Finance for managers
- 08 Project Management

Executives & boards
Strategic capability

- 02 Strategy, Governance & Risk
- 11 Digital Transformation & AI
- 03 Finance & Accounting

Pathways are indicative. Final sequencing is agreed after the needs conversation in the Listen step.

TAILORING

Same track, different room.

Scenarios, terminology, regulatory references and case work are rewritten for the sector in the room. A leadership course for a hospital is not the course a bank or a factory receives.

Government & public sector
Public records, procurement, citizen service

Banking & insurance
NBE expectations, fraud, customer data

Healthcare & pharma
Patient records, quality, confidentiality

Education
Institutional leadership and digital skills

Agriculture & agribusiness
Cooperatives, field data, agri-finance

Manufacturing & energy
Safety, quality, operations

Hospitality, retail & trade
Service, sales, stock and logistics

NGOs & development
Donor reporting, safeguarding, M&E

Enterprise & SME
Lean teams and cost-conscious plans

05 · RUNNING A PROGRAMME

The same four steps as every DES project.

Training is not a separate product bolted on at the end. It follows the same sequence as the systems work, and in most projects it runs inside it.

STEP 1
Listen

Needs conversation and baseline

A conversation about skill gaps, schedule and goals, plus a baseline check of the cohort.

STEP 2
Plan

Curriculum and assessment design

Curriculum, materials and assessment method built to agreed objectives, in Amharic and English.

STEP 3
Build

Exercises and delivery in waves

Case studies built on your own work; cohorts trained in waves that keep the organisation running.

STEP 4
Grow

Assessment and follow-up

Assessment, evaluation, refresher scheduling and follow-up from trainers based in Ethiopia.

BEFORE

Stakeholder interviews, a baseline check and a signed-off plan. Nothing starts without your approval.

DURING

Attendance and progress updates after each cohort, with one named programme lead to call.

AFTER

Results, certificates, an evaluation report and a refresher plan for the next cycle.

GETTING STARTED

Tell us four things.

1. Which teams or roles need to change
2. Roughly how many delegates
3. Your preferred format and location
4. Your timeline and any regulatory deadlines

We return a scoped programme and a cost within one business day.

05 · DELIVERABLES

What you hold at the end.

Training is easy to buy and hard to evidence. Every programme closes with a documented pack you can put in front of an auditor, a ministry or a board.

Scoping note and objectives

The agreed statement of skill gaps and learning objectives the programme was built against.

Course materials

Delegate workbooks and reference guides in Amharic and English, yours to keep and reuse.

Attendance record

A per-cohort register suitable for HR, audit and donor reporting files.

Assessment results

Baseline and post-delivery measures showing capability change per delegate and per cohort.

Certificates of completion

Individual delegate certificates issued on successful completion.

Evaluation and next steps

Delegate feedback, trainer observations and a recommendation for the next cycle.

PARTNER QMS
ISO 9001
:2015

Produced under our partner's ISO 9001:2015 certified quality management system, bilingually where the institution needs it for internal or regulatory filing.

LET'S WORK TOGETHER

Discuss your training needs.

Tell us which teams need to change, and what they should be able to do afterwards. We will return a scoped programme and a cost within one business day.
